COPY

To Whom it may concern,

I would like to make a request under the Official Information Act 1982.

I would like the following please.

I would like copies of the applications to your Animal Ethics Committee(s) for the projects that used the 106 dogs used in "medical research", the 79 dogs used in "testing" and the 36 dogs used for "other" purposes as reported to the Ministry for Primary Industries in 2013 (Animal Usage Figures reporting form for that period is attached) and for any projects using dogs that fall into the same categories in 2014 and 2015. I would also like any veterinary reports related to those projects supplied to the AEC(s) at any point in time.

Thank you in advance for the time taken to fill this request.

Yours sincerely,

Stephen Manson
Executive Director
New Zealand Anti-Vivisection Society
